MEDIA RELEASE – March 2007

CASCADE RESTORATION & REMODELING SHINES AT TOUR OF REMODELED HOMES

(Portland, OR) Cascade Restoration & Remodeling, one of the Portland area's leading remodeling companies, is excited to be part of the Portland Remodelers™ Council's 2007 Tour of Remodeled Homes, one of the local building industry's most popular tours (www.remodeltourportland.com). "I think the remodeled homes tour is so popular because so many homeowners are thinking about what they can do to improve their homes. Far more, in fact, than are thinking about moving into a new place," noted Steve Pruitt, president of Cascade Restoration and Remodeling.

About The Remodelers™ Council:

The Remodelers™ Council is a national award winning council comprised of Home Builders Association members who are affiliated or work in the remodeling industry. Approximately 200 members work together with a goal of being the one source for both homeowners and industry professionals. Council members are offered a variety of ongoing education opportunities to keep them up to date on the latest technology, products and environmental issues. Business management issues are also frequently addressed, which improves customer service.

The Council has established Oregon's original Tour of Remodeled Homes™ (2000) and helps to produce Remodel Portland, the annual magazine devoted to the professional remodeling industry and the Tour. Council members also actively participate in both the spring and fall Portland Home & Garden Show™ and the annual Surplus Sale.

About Cascade Restoration & Remodeling:

Steve Pruitt is founder and president of Cascade Restoration & Remodeling, in business since 1987. Steve and his team of highly experienced craftsmen specialize in residential remodels of almost any size, home additions, kitchens, bathrooms, and some unique and unusual custom home projects. Cascade Restoration & Remodeling is located at 550 NW Alpine Terrace, Portland, Oregon, 97210. Steve can be reached at 503-246-6433.
